EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Connell on 9/20/05.

2. The application has been amended as follows:

Regarding claim 2, line 12, the phrase —an average of—have been added after “and”.

3. The last office action mailed 4/6/05 pointed out an error in the dependent claim 2. Applicant has placed claim 2 in independent form, but it does not overcome the 112, 2nd paragraph rejection as indicated in the last office action. This amendment is to amend the claim to correctly specify the limitation as disclosed in Fig. 2, step 8.

4. The following is an examiner's statement of reasons for allowance: the prior art in the record, Itoh et al or Satoh et al, fails to disclose, teach or suggest an audio noise updating system having a determining means to determine the updating when the difference between the subsequent noise levels is smaller than a predetermined value **and** the difference between the held noise level and an average of the subsequent noise levels is larger than a predetermined value as specified in claim 2. The claimed input signal has been interpreted as an audio signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
